

CHIMIE PARISTECH

EUROPEAN & INTERNATIONAL MOBILITY

Founded in 1896 at the heart of Paris, Chimie ParisTech is emblematic of research and teaching in Chemistry in France. The institution has 350 students in engineering and offers master's and doctoral programmes to more than 200 students.

Chimie ParisTech is a member of the Université Paris Sciences & Lettres (PSL), one of the best French institutions and the world's 41st best university according to the Times Higher Education 2019 ranking.

Chimie ParisTech hosts 120 teacher-researchers and researchers in 3 joint laboratories with CNRS. Research activities cover a wide range of chemistries and address topics such as health, energy, materials and environment.

Our European and international students come from more than 20 countries and represent 25% of our total workforce.

ParisTech

English tracks for Erasmus & International Students

In 2019-2020, it is the first time that Chimie ParisTech offers the opportunity to Erasmus & International students to come and study for one semester totally in English from January 2020.

Chimie ParisTech has developed tracks in English at Master level (M1) which correspond to the second year of engineering in France.

Thanks to the specificities of our engineering curricula, you may also choose some units in management, languages etc.

| Scientific options (12 ECTS) | Management options (6 ECTS) | Other options (2 ECTS) | Professional project (12 ECTS) |
|--------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------|----------------------------------------------------------|
| Analytical and Bio Chemistry (ABC) <i>(very limited places)</i> | Management English or French as foreign language Technology Team project | PSL Week <i>(scientific courses in another part of University PSL)</i> | 5 months internship <i>(public or private sector)</i> |
| Materials, Processes, formulation, bio-interface | Individual project / tutoring English or French as foreign language Technology Team project | Additional language <i>(English or French)</i> | |

For those who already have knowledge of French (B1), other scientific options such as Chemical Engineering or Molecular Chemistry are possible.

All our syllabus are available on our website :

HOW TO APPLY

As for any exchange mobility, you need to apply to your University first.

Then you need to apply to Chimie ParisTech via the University PSL admission system:

<https://www.chimieparistech.psl.eu/int-eu-exchange/>

and select : *Chimie ParisTech – Erasmus and international exchange mobility*

DEADLINES

Nomination : 8 November 2019

Application : 15 November 2019
